

Traditional EMT-Basic Payment Plan

RC Health Services offers a convenient and flexible payment plan for those who do not wish to pay for the course in full. The total cost of tuition for the payment plan is \$1349 (see page 2 for a cost breakdown).

The student will make an initial down payment of \$700 with their application and a color copy/scan of their photo ID. This down payment secures their spot in the course.

Following the initial \$700 down payment, the student will make four (4) payments of \$162.25 every 25 days until tuition is paid in full.

The billing cycle will begin 25 days after the first day of class.

Example:

The student enrolls on the 1st of May with the down payment of \$700. The course they have enrolled for starts on the 4th of June. This means that the first payment of \$162.25 will be due on the 29th of June. Each subsequent payment will occur every 25 days thereafter.

The student is able to make payments online, over the phone, or in person by cash, check, or money order.

Each student must have their balance paid in full prior to sitting for the Final Exam—even if this occurs prior to their final payment.

Cost Estimate
