

Online Advanced EMT Payment Plan

RC Health Services offers a convenient and flexible payment plan for those who do not wish to pay for the course in full. We offer two flexible options for students:

1. Pay \$1,000 down to begin the course. The student will then be responsible for paying \$358 per month for 6 months. All payments will be due on the 30th of the month (the 28th for February).
2. Pay \$1,000 down to begin the course. The student will then be responsible for paying \$239 per month for 9 months. All payments will be due on the 30th of the month (the 28th for February)

The total cost for tuition using the payment plan is \$3150.

The student must be paid in full prior to sitting for the AEMT Final Exam.

There are no refunds given for the AEMT or AEMT/EMT- B package.

EMT-Advanced Cost Estimate

Goals:

To prepare students to become compassionate, competent, entry-level Emergency Medical Technicians that meet state and national expectations within the profession.

Upon successful completion of program requirements, the student will demonstrate the following:

- The ability to comprehend, apply, analyze, and evaluate information relative to the role as an Emergency Medical Technician.
- Technical proficiency in all of the skills needed to fulfill the role on an entry-level Emergency Medical Technician.
- Personal behaviors consistent with professional and employer expectations of an Emergency Medical Technician.

Program Objectives:

Teach the student to comprehend, apply, analyze, and evaluate information relative to the role as an Emergency Medical Technician

- Utilization of classroom/online portal (didactic learning), laboratory (psychomotor learning), and clinical/field experience (psychomotor and affective learning) to allow the student to progressively learn and apply care to patients in the pre-hospital care setting.
- Establish technical proficiency of the skills needed to fulfill the role of an Emergency Medical Technician and preparation for National Registry skills testing at the culmination of the course.
- Promote behavior that is supportive of the EMS profession and encourages the student to demonstrate a caring, empathetic attitude towards patients, families, and other healthcare partners
